1987 Annual Index

Author Index

A
Adam, Ray, Nov 801
Adams, Cynthia D., Aug 545
Agriesti-Johnson, Clair, July 463
Alsop, Karen Speerschneider, July 444
Altaffer, Marcia, May 306
Aslani, Mohammad, Oct 688

B
Bakke, Antony C., Sept 590
Bales, Scott A., April 256
Ball, Lauren R., Aug 519
Barbieri, Lee A., April 223
Beck, J. Robert, Mar 203
Beck, Malcolm L., Sept 627
Beckjord, Patricia A., Mar 176
Belobraydic, Kathleen A., Feb 88
Bina, Mahin, Mar 170
Bishop, Michael L., April 223
Bleistein, Rob, Feb 118, Nov 793
Bloom, Linda C., Aug 519
Bollinger, Pamela B., Jan 21
Bond, Lawrence, July 449
Bonke, Barbara A., Nov 781
Bottoms, Charles L., Mar 203
Bowers, Larry D., Dec 852
Boyd, Charles M., Oct 704
Bradshaw, Delilah A., Feb 77
Brailas, Carrie, Jan 21
Braun, Adrian, Aug 527
Braziel, Rita M., Sept 590
Breazeale, Frank W., April 261
Britt, Mary S., Feb 110
Brooker, DeForest W., Aug 524
Bruce, A. Wayne, Sept 615
Bruni, John F., Mar 202
Burden, Charles A., May 327
Bushardt, Stephen C., Feb 107

C
Campbell, JoLynne, Nov 769
Cannon, M. Samuel, Jan 35
Carlson, Katherine B., Mar 176
Castleberry, Barbara M., July 468, Aug 547
Cheng, Mark Shulin, July 484
Cherney, Paul J., July 468
Chickering, E. J., May 323
Chin, Nina Y., June 373
Clerc, Jeanne M., Nov 773
Coleman, Mary L., Sept 615
Coletta, Umberto, Aug 537
Condie, Richard M., July 444
Connor, Ann Marie, Sept 585
Cook, R. Edward, June 391
Cooper, E. Shannon, Dec 839
Cox, Catherine J., Mar 159
Cox, Edmundo A., Nov 776
Crawford, Mary N., Mar 149

D
Dapson, Richard W., July 484
Davey, Richard J., Mar 176
Davis, Katherine A., Mar 176
Davis, Richard A., May 316
De Cresce, Robert P., Jan 47, Mar 182, May 330, June 402, July 472, Aug 551, Oct 702, Nov 791, Dec 858
DeJager, Andrea, Nov 778
Dorff, Peter G., May 327
Drewinko, Benjamin, Jan 21
Dulac, Ronald W., Feb 90

E
Eisenstaedt, Richard S., Mar 176
Eller, Pamela M., Nov 778
Esses, Barbara, Nov 778
Estevez, Enrique G., April 242

F
Farkas-Himsley, Hannah, Aug 527
Favero, Martin S., Oct 665
Fisher, Fran, Feb 110
Fishleder, Andrew J., June 368, July 441, Aug 513
Flournoy, D. J., Feb 88
Floyd, Barbara E., Jan 39
Fox, Susan M., June 373
Fung, Joan C., Feb 74
Furlong, James W., April 250

G
Gagnon, Roger H., April 259
Gauvin, Gregory P., June 373
Genack, Lorri J., Feb 101
Genter, Janet, Mar 159
Goel, Mahesh C., Jan 10
Goldstein, David J., Sept 597
Good, Margrit, May 304
Green, Linda K., July 456
Gregg, Dorothy E., June 393
Griffiths, John C., Mar 202

H
Hall, Gerri S., Nov 765
Hampton, Kenneth D., Jan 37
Hargrave, Scott, Mar 167
Harr, Robert, July 449
Hartzell, Rita K., Jan 43
Hickey, Sheila, Jan 21
Hicks, David G., Sept 585
Hinds, Irwin L., July 484
Hoeg, Chip, Mar 165
Hoffman, George C., June 368, July 441, Aug 513
Holewinski, Paul K., July 475
Hsu, Ming Chue, June 382
Hudson, M. Jane, Feb 107
Hui-Mei Huang Lin, Amy, July 463
Husain, Aliya N., Jan 32

I
Ioannidis, Joyce Z., April 221

J
Jackson, J. Brooks, Dec 830
Jackson, James A., Nov 769
Jafek, Bruce W., Nov 778
James, Karen, Aug 547
Johnson, Henry W., Jan 37
Johnson, Travis, June 382
Johnston, Dennis, Jan 21
Jones, John W., Dec 855

K
Kahn, Sidney N., Mar 170
Kalache, George R., Feb 90
Kan, Michael K., Jan 28, Feb 82
Kaplow, Leonard S., April 265
Kellegg, Anne E., May 313
Kellogg, James A., Sept 610
King, Gail, Nov 805
Kittick, John, Jr., May 304
Knapp, Cynthia C., Nov 765
Knight, Joseph A., Mar 153
Koch, Herbert H., Sept 603
Kolins, Mark D., Oct 673
Krill, Carl E., Jr., Sept 613
Krueger, Rita A., Oct 677

L
Laatz, Lillian, Mar 184
Lang, Gordon E., Feb 94
Laposata, Michael, Sept 585
LaRocco, Mark T., Mar 163
Larson, Dorothy, Jan 10
LaRue, Ruth Ann, Mar 165
Lasky, Larry C., Dec 829, 843
Lau, Peter, Feb 98
Lawhead, Creighton W., Mar 202

Lear, Sheron C., May 313
Lehn, Robert S., Sept 621
Lema, Albert M., Nov 776
Lifshitz, Mark S., Jan 47, Mar 182, May 330, June 402, 412, July 472, Aug, 551, 557, Oct 702, Nov 791, Dec 858
Liller, Karen D., Oct 699
Long, John Michael, July 484
Luban, N. L. C., May 299
Lukomskyj, Luba, July 484
Lunz, Mary E., Aug 547

M

MacDonald, Doris M., Aug 532
Malowany, Moises S., May 304
McAuliffe, Geoffrey, May 313
McGuire, Lynn, Oct 704
McLemore, Steven S., Sept 607, Nov 802
McMican, A., May 299
Metzger, Richard C., Aug 540
Miceli, Linda J., June 406
Miller, Freddie Page, Feb 98
Miller, Jonathan L., Aug 524
Minard, Barbara J., Jan 15
Minnich, Virginia, April 265
Mintz, Paul D., Aug 537
Mirkin, L. David, Sept 597
Monroe, Dan, Sept 627
Moore, David, Mar 163, July 456
Morgan, Jeff W., Oct 682
Morris, Michael W., Aug 524
Mortensen, Joel E., Mar 163
Mueller, Rudolph G., Feb 94
Musclow, C. Elizabeth, Aug 527

N

Neff, John C., Oct 684
Neibauer, Barbara C., Nov 786
Nelson, Janice M., June 385
Ng, Ronald H., May 306
Nicar, Michael J., June 382
Nichols, Roger C., Oct 690
Novak, Robert W., June 388, Sept 613

O

Okamoto, Mitsuko, June 385
Olesinski, Raymond L., Oct 695
Oxford, Beverly S., April 234

P

Pak, Charles, Y. C., June 382
Parikh, George C., Feb 90
Payne, Barbara A., June 405
Penoyer, Karen, June 373
Perry, Mark S., Sept 600
Pierre, Robert V., June 405
Pimsler, Meade, Sept 603
Pinto, Marguerite M., Oct 671
Polesky, Herbert R., Dec 829
Powers, Jean D., July 463
Pratt, Kathleen, Nov 765
Prewitt, Patricia L., Mar 176
Putnam, Mary Howard, July 459

Q

Qadri, S. M. Hussain, Feb 88

R

Reilly, Bernadette A., Sept 615
Reilly, Patricia A., Mar 167
Remlinger, Kathleen, Jan 32
Roth, Gerald J., Feb 90
Rue, Leslie W., Mar 173
Rutherford, Isobel, Nov 765
Rutkowski, Chia In, April 265

S

Sacher, R. A., May 299
Sahin, Aysegul, Sept 590
Saltzstein, Sidney L., Jan 10
Sampson, H. Wayne, Jan 35
Sautter, Robert L., Sept 610
Savage, Richard A., Nov 805
Schneider, Kenneth A., April 223
Schrodt, G. Randolph, May 313
Schumann, G. Berry, Feb 101
Shifman, Mark A., April 247, 256
Shires, Gary, Nov 801
Shulman, Ira A., June 385
Silberman, Simone, Jan 32
Simpson, Marcus B., Jr, Mar 176
Skendzel, Laurence P., July 461
Smith, Thomas F., Jan 16
Snover, Dale C., Dec 849
Snyder, John R., Jan 43, July 463, Nov 781
Soldan, Alice F., June 393
Songer, Joseph R., Nov 758
South, Susan F., Mar 165, Sept 627
Spragg, Lorraine, Aug 527
Stahl, John, Aug 547
Statland, Bernard, May 306
Steffee, Craig H., April 232
Steindel, Steven J., Feb 123
Stewart, Charles E., April 224
Strauz, Robert, June 385
Strickland, Daniel M., May 310
Sullivan, Anne M., May 323

T

Tacha, David E., Aug 519
Taschini, Pier A., Aug 532
Taylor-Smith, Paul, June 405
Theil, Karl S., Oct 684
Thompson, Joseph C., June 385
Thorne, Michael, Oct 684
Tilton, Richard C., Feb 74
Tregellas, W. Michael, Mar 165, Sept 627
Trujillo, J. M., Jan 21
Trulson, Michael E., Jan 35
Trumbull, Daniel, July 449
Tschantz, Judith A., Sept 613
Turgeon, Mary Louise, June 406

V

Valdiserri, Ronald O., Mar 159
Valenstein, Paul, April 239
Varnadoe, Lionel A., June 397
Varney, Judy, Aug 540
Vine, William, Dec 846

W

Wagner, Eileen, Mar 202
Walden, Patrick K., Mar 202
Walker, Richard H., Dec 834
Wallas, Charles H., Mar 176
Wasilauskas, Benedict L., Jan 37, Sept 627
Watson, Judith S., May 316
Wians, Frank H., Jr., Mar 167
Williamson, Michael R., Oct 704
Winkelman, James W., Aug 524
Woods, Gail L., Nov 765
Woosley, John T., May 333
Wu, James T., Mar 153

Z

Zerbe, Tony, Mar 159
Ziaya, Paul R., May 310

Subject Index

A

Abbott-Shaw Life Care Pump System: comparisons of mechanical infusion pumps and needle size on blood flow and hemolysis, Feb 98
Acinetobacter: identification of, using Quantum II system, Mar 163
Acquired immunodeficiency syndrome (AIDS): applications of flow cytometry in surgical pathology, Sept 590; biological hazards in laboratory, Sept 665; HTLV III/LAV: agent summary statement, Feb 115
Administration/supervision: focus on nontraditional career opportunities, Nov 786
Advertising: deceptive, (Letter) Mar 202
AI. *See Artificial intelligence*
AIDS. *See Acquired immunodeficiency syndrome*
Algae: evaluation of Uvitex 2B for detecting, identifying in tissue, Sept 603
Allied Health Education Directory, Jan 40
Allograft rejections: role of surgical pathology in management of transplant patients, Dec 849
American Association of Blood Banks, Mar 176
American Optical 820 Rotary Microtome: histopathology instrumentation: innovations in 1980s, Aug 519
American Society of Clinical Pathologists: Associate Member participation, (Editorial) Jan 15; categoricalist eligibility requirements for ASCP certification: university-based medical technology curriculum, May 323; laboratory professional: vital link in health care team, (Editorial) April 221; medical photography competition, 1987, Oct 706
AMS. *See Associate Member Section*
Anatomic pathology: applications of flow cytometry in surgical pathology, Sept 590; histopathology instrumentation: innovations in 1980s, Aug 519; quality control system for, June 391
Anema-Graph: computerized diagnosis of anemias based upon red blood cell indices and related cell counts, Aug 540
Anemia-Diagnosis program: computerized diagnosis of anemias based upon red blood cell indices and related cell counts, Aug 540
Anemias: computerized diagnosis of, based upon red blood cell indices and related cell counts, Aug 540
Antibodies: new guidelines, standards for rubella antibody testing from NCCLS and CAP, July 461; program for identification of, Nov 793; red blood cell, testing of obstetric patients, Feb 77; review of micromethods for blood bank laboratories, Mar 149
Antigen-antibody testing: red blood cell antibody testing of obstetric patients, Feb 77; review of micromethods for blood bank laboratories, Mar 149
Antigens: protease digestion step in immunohistochemical procedures: ficin as substitute for trypsin, Aug 532
Antilymphocyte globulin: therapeutic drug monitoring support of transplantation, Dec 852
Antithymocyte globulin: therapeutic drug monitoring support of transplantation, Dec 852
A/O Reichert Histostat Tissue Embedding Center: histopathology instrumentation: innovations in 1980s, Aug 519
API 20E: identification of gram-negative bacilli using Quantum II system, Mar 163
Array protein system, preview of, Jan 47
Artificial intelligence (AI): and LISP programming applications in medical laboratory: Part I, Jan 28; and LISP programming applications in medical laboratory: Part II, Feb 82
Associate Member Section (AMS): (Editorial) Jan 15; laboratory professional: vital link in health care team, (Editorial) April 221
Asynchronous communications adapter, April 224
Autotechnicon tissue processor: histopathology instrumentation: innovations in 1980s, Aug 519
Autotechnicon Ultra Tissue Processor: histopathology instrumentation: innovations in 1980s, Aug 519
Azathioprine: therapeutic drug monitoring support of transplantation, Dec 852

B

Beta-hemolysis: significance of, in rapid identification of clinical gram-negative bacilli, Feb 88
Bilirubin: Ektachem bilirubin fractions in adult outpatient population, Mar 159
Biological hazards: decontamination: probabilistic pursuit, Nov 758; human T-lymphotropic virus type III/lymphadenopathy-associated virus: agent summary statement, Feb 115; in the laboratory, Oct 665
Biosafety in Microbiological and Biomedical Laboratories (manual), Feb 115
Blankophor BA: evaluation of Uvitex 2B: nonspecific fluorescent stain for detecting, identifying fungi and algae in tissue, Sept 603
Blockmaster II embedding center: histopathology instrumentation: innovations in 1980s, Aug 519
Blood bank: model curriculum for blood banking in medical technology program, Mar 176; planning for

laboratory support of transplantation, Dec 855; review of micromethod for blood bank laboratories, Mar 149; transfusion service support of clinical transplantation, Dec 834; transplantation: its impact on laboratory, (Editorial) Dec 829
Blood banking specialist: survey of educational programs for, July 468
Blood clots: bacterial phagocytosis monitored by fluorescence and extracellular quenching: use of blood clot-derived PMNs, Aug 527
Blood group ABO: bone banking: overview, Dec 830; hematopoietic stem cell manipulation in laboratory, Dec 843; histocompatibility laboratory support of transplantation programs, Dec 839; Olympus PK 7100 automated pretransfusion blood testing system, Mar 182; red blood cell antibody testing of obstetric patients, Feb 77; review of micromethods for blood bank laboratories, Mar 149; transfusion service support of clinical transplantation, Dec 834; transplantation: its impact on laboratory, (Editorial) Dec 829
Bone banking: overview, Dec 830
Bone marrow transplantation: hematopoietic stem cell manipulation in laboratory, Dec 843; role of surgical pathology in management of transplant patients, Dec 849; transfusion service support of clinical transplantation, Dec 834
Branhamella catarrhalis: as cause of upper respiratory infection, July 459
Bulletin boards: primer of telecommunications for clinical laboratory, April 224

C

Calcofluor: evaluation of Uvitex 2B: nonspecific fluorescent stain for detecting, identifying fungi and algae in tissue, Sept 603
Calcofluor white M2R: fluorescent compounds that nonspecifically stain fungi, July 456
Candida albicans: fluorescent compounds that nonspecifically stain fungi, July 456
Candida tropicalis: fluorescent compounds that nonspecifically stain fungi, July 456
Capillary tubes: review of micromethods for blood bank laboratories, Mar 149
Carcinoembryonic antigen (CEA): in pericardial effusion, Oct 671
Cardiac transplantation: chemical assessment in transplantation, Dec 846; transfusion service support of clinical transplantation, Dec 834
Cardiopulmonary transplantation: chemical assessment in transplantation, Dec 846
Case report: primary pulmonary lymphoma, Jan 32
Case study: meningitis, Oct 677
Catecholamines: and their metabolites: clinical and laboratory aspects, Mar 153
Categoricalist certification program, May 323
ChemPro-1000: evauation of, using sodium, potassium, chloride, May 306
Chromatography: sensitive, specific method for CK-MB, Feb 94
Chrono-Log Model 560VS Lumiaggregometer, preview of, Dec 858
Citrobacter amalonaticus: identification of, using Quantum II system, Mar 163
Clinical chemistry: catecholamines and their metabolites: clinical and laboratory aspects, Mar 153; ChemPro-1000: evaluation using measurements of sodium, potassium, chloride, May 306; comparison of results for serum versus heparinized plasma for 30 common analytes, July 449; Ektachem bilirubin fractions in adult outpatient population, Mar 159; evaluation and comparison of new and washed cuvette trays on Technicon RA-1000®, Sept 607; preservation of urine sample for determination of renal stone risk factor, June 382; sensitive, specific method for CK-MB, Feb 94
Clinical laboratory: biological hazards in, Oct 665; computerizing small sections of, April 239; decontamination: probabilistic pursuit, Nov 758; expert systems in clinical laboratory, April 247; focus on nontradiitional career opportunities, Nov 786; hematopoietic stem cell manipulation in laboratory, Dec 843; histocompatibility laboratory support of transplantation programs, Dec 839; impact of transplantation on, (Editorial) Dec 829; new guidelines, standards for rubella antibody testing from NCCLS and CAP, July 461; personal computers in, (Editorial) April 223; planning for laboratory support of transplantation, Dec 855; primer of telecommunications for, April 224; systems analysis perspective for managing change in, Jan 43
Clinical laboratory personnel: assessment of continuing education needs for, Feb 110
CLINILAB instrument: evaluation of urine transport kit on urine reagent strip testing, Mar 167
Closed-circuit television: high-resolution videomicroscopy: evaluation as effective teaching tool, Oct 690
Coagulase-negative staphylococci: antibiogram comparisons: methicillin-resistant vs methicillin-susceptible, Nov 765
Cold agglutinins: automated screening and quantitation of, using Coulter Model S, Feb 90
College of American Pathologists: new guidelines, standards for rubella antibody testing, July 461; role of certified medical technologists in providing quality laboratory results, Aug 547
Commission on Associated Members Activities (CAMA), (Editorial) Jan 15
Committee on Allied Health Education and Accreditation, May 323
Computer applications: computerized diagnosis of anemias based upon red blood cell indices and related cell counts, Aug 540; LISP programming and AI applications in medical laboratory: Part I, Jan 28; LISP programming and AI applications in medical laboratory: Part II, Feb 82; *See also Microcomputer applications/technology; Software review*
Computer-assisted instruction: use of computers in medical technology education, Nov 773
Computer-assisted review, April 261
Computers: focus on nontraditional career opportunities, Nov 786; use of in medical technology education, Nov 773
Continuing education: assessment of, for clinical laboratory personnel, Feb 110; considerations for planning programs, Oct 695; laboratory uses for database managers, April 234; *See also Medical technology education*
Coulter Counter Model S: automated screening and quantitation of cold agglutinins using, Feb 90
Coulter Counter S550: inconsistent relationship between hemoglobin and hematocrit, (Ask the Experts) Nov 805
Coverslipping machine: histopathology instrumentation: innovations in 1980s, Aug 519
Creatine kinase (CK): sensitive, specific method of identifying myocardial isoenzyme of, Feb 94
Crossmatch to transfusion (C/T) ratio: re-evaluating hospital blood inventories, Oct 673
Crossmatching: planning for laboratory support of transplantation, Dec 855
Cryostats: histopathology instrumentation: innovations in 1980s, Aug 519
Cultureset system: cost-effective method for recovery of herpes simplex virus, Sept 610
Culturette Brand 10-Minute Group A Strep ID system: compared with enzyme fluorescence and routine culture in detecting Group A streptococci, Jan 37
Cuvette trays: evaluation and comparison of new and washed, on Technicon RA-1000®, Sept 607; new vs used on Technicon RA-1000®, (Letter) Nov 801
Cyclosporine: therapeutic drug monitoring support of transplantation, Dec 852
Cytology: case of primary pulmonary lymphoma, Jan 32; new, reproducible modified Papanicolaou staining procedure, Oct 688; use of hair spray in preparation of cytology specimens, (Letter) Nov 801
Cytomegalovirus: planning for laboratory support of transplantation, Dec 855; rapid methods for diagnosis of, Jan 16
Cytotechnologist: recent survey of cytotechnology training programs, Feb 101; survey of education programs for, July 468
Cytotechnology: recent survey of training programs, Feb 101

D

Data analysis: laborataory uses for database managers, April 234
Database management: database programming for laboratory applications, April 256; laboratory uses for database managers, April 234; low-budget computer for laboratory applications, April 242; for medical technology educators, April 232
Databases, biomedical/bibliographic: primer of telecommunications for clinical laboratory, April 224
Decontamination: biological hazards in the laboratory, Oct 665; probabilistic pursuit of, Nov 758
Delegation: as management skill, Mar 173
Densitometry: use of for quantitation of monoclonal immunoglobulins, Mar 170
Dimethyl sulfoxide (DMSO): reduction of freezing artifact in frozen sections using, Sept 597
Direct antiglobulin test (DAT): positive DAT workup, (Letter) Mar 202; red blood cell sensitization, (Letter) Sept 627
Disseminated intravascular coagulation (DIC): laboratory diagnosis and monitoring of, Sept 585
DNA probe kits: and rapid detection of infectious diseases, Feb 74
Donor selection, for transplantation: bone banking: overview, Dec 830; chemical assessment in transplantation, Dec 846
Donor-specific transfusions: transfusion service support of clinical transplantation, Dec 834
DuPont ACA II: program for calibrating, April 259
Dyazide®: unusual red blood cell sensitization associated with, Mar 165

E

Education: focus on nontraditional career opportunities, Nov 786; *See also Medical technology education*
Ektachem bilirubin fractions: in adult outpatient population, Mar 159
Electronic data transfer: primer of telecommunications for clinical laboratory, April 224
Electronic mail (E-mail): primer of telecommunications for clinical laboratory, April 224
Electrophoresis: sensitive, specific method for identification of CK-MB, Feb 94
Embedding centers: histopathology instrumentation: innovations in 1980s, Aug 519
Enterobacteriaceae: identification of, using Quantum II system, Mar 163
Enterococci: evaluation of rapid method for determining L-pyrrolidonyl-beta-napthylamide hydrolysis, Oct 682
Enzyme fluorescence: comparison of, with latex agglutination and routine culture in detection of group A streptococci, Jan 37
Enzyme immunoassays: rapid methods for diagnosis of viral infections, Jan 16
Epstein-Barr virus: rapid methods for diagnosis of, Jan 16
Erythrocytes: computerized diagnosis of anemias based upon red blood cell indices and related cell counts, Aug 540; life-saving incompatible blood transfusion, June 385; red blood cell antibody testing of obstetric patients, Feb 77; unusual red blood cell sensitization associated with Dyazide®, Mar 165
ES-600 Immunoassay System, preview of, July 472
Escherichia coli: identification of, using Quantum II system, Mar 163; PGUA-Indole microtube: rapid, accurate, cost-effective screen for, in urine cultures, Sept 600; significance of beta-hemolysis in rapid identification of, Feb 88
Expectancy theory of motivation, Feb 107
Extracellular quenching: bacterial phagocytosis monitored by fluorescence and,: use of blood-clot-derived PMNs, Aug 527

F

Fetal hemoglobin: practical approach to detection of hemoglobinopathies,: Part I, June 368
Fetal-maternal hemorrhage: D^u testing in postpartum women, (Letter) July 484
Fibrinogen: computer program for determinations of, Feb 118; fibrinogen/factor assay program, Sept 621
Ficin: as substitute for trypsin—protease digestion step in immunohistochemical procedures, Aug 532
Fisher Histomatic robot slide stainer: histopathology instrumentation: innovations in 1980s, Aug 519
Flow cytometry: applications of, in surgical pathology, Sept 590; multiparameter automated hematology

analyzer: Technicon H-6000, Jan 21
Fluorescence: bacterial phagocytosis monitored by, and extracellular quenching: use of blood-clot derived PMNs, Aug 527
Frozen sections: reduction of freezing artifact in, using dimethyl sulfoxide, Sept 597
Fungi: evaluation of Uvitex 2B for detecting, identifying, Sept 603; fluorescent compounds that nonspecifically stain fungi, July 456

G

GAYLE: microcomputer-based surgical pathology log-in system, April 250
General-purpose data analysis: for use on Radio Shack PC-3A pocket computer, July 475
Genetiscan Digital Karyotype System, preview of, June 402
Glycogen: demonstration of, in neutrophils using PAS-Dimedone technique, Jan 35
Government: focus on nontraditional career opportunities, Nov 786
Graft-versus-host disease (GVHD): practical aspects of blood irradiation, May 299; role of surgical pathology in management of transplant patients, Dec 849
Gram-negative bacilli: identification of, using Quantum II system, Mar 163; significance of beta-hemolysis in rapid identification of, Feb 88
Group A beta-hemolytic streptococci: detection of in throat cultures, Jan 37
Group A streptococci: direct detection of, (Letter) Sept 627; evaluation of rapid method for determining L-pyrrolidonyl-beta-napthylamide hydrolysis, Oct 682

H

Hacker/Bright Cryostat: histopathology instrumentation: innovations in 1980s, Aug 519
Hacker knife sharpener: histopathology instrumentation: innovations in 1980s, Aug 519
Hacker Linear stainer: histopathology instrumentation: innovations in 1980s, Aug 519
Hacker-Meisei RCM 3655 coverslipping machine: histopathology instrumentation: innovations in 1980s, Aug 519
Hair spray: use of in preparation of cytology specimens, (Letter) Nov 801
Hematology: applications of flow cytometry in surgical pathology, Sept 590; automated screening and quantitation of cold agglutinins using Coulter Model S, Feb 90; diagnosing plasma cell leukemia, Oct 684; evaluation of Sysmex® CC-800/PDA-410 System with trimodal histogram for white cell differential analysis, June 373; evaluation of Technicon H-1® hematology system, May 316; implementing the three-part differential, (Letter) June 405; laboratory diagnosis and monitoring of disseminated intravascular coagulation, Sept 585; normal platelet and mean platelet volumes in pediatric patients, Sept 613; practical approach to detection of hemoglobinopathies: Part I, June 368; practical approach to detection of hemoglobinopathies: Part II, July 441; practical approach to detection of hemoglobinopathies: Part III, Aug 513; single versus duplicate prothrombin time assays, Aug 524; Technicon H-6000, evaluation of, Jan 21
Hematopoietic progenitor cells: manipulation in laboratory, Dec 843
Hemoglobin: curret status of hemoglobin-based resuscitative therapy: review, July 444
Hemoglobin/hematocrit inconsistency, (Ask the Experts) Nov 805
Hemoglobin Lepore trait: practical approach to detection of hemoglobinopathies: Part III. Nonsickling disorders and cord blood screening, Aug 513
Hemoglobinopathies: practical approach to detection of,: Part I, June 368; practical approach to detection of,: Part II. Sickle cell disorders, July 441; practical approach to detection of, Part III. Nonsickling disorders and cord blood screening, Aug 513
Hemolysis: comparison of mechanical infusion pumps and needle size on blood flow and, Feb 98; computer program for computation of percent, Mar 184; red blood cell sensitization, (Letter) Sept 627
Hemolytic disease of newborn (HDN): red blood cell antibody testing of obstetric patients, Feb 77
Hemophilus influenzae: meningitis: case study, Oct 677
Hemorrhage: D^u testing in postpartum women, (Letter) July 484; life-saving incompatible blood transfusion, June 385
Heparinized plasma: versus serum, comparison of results for 30 common analytes, July 449
Hepatitis B: biological hazards in laboratory, Sept 665; bone banking: overview, Dec 830
Herpes simplex virus: cost-effective method for recovery of, Sept 610
Hersey-Blanchard Theory of leadership, Feb 107
Histochemistry: protease digestion step in immunohistochemical procedures: Ficin as substitute for trypsin, Aug 532
Histocompatibility laboratory: planning for laboratory support of transplantation, Dec 855; support of transplantation programs, Dec 839
Histologic technician: survey of education programs for, July 468
Histology: case of primary pulmonary lymphoma, Jan 32; demonstration of glycogen in neutrophils using PAS-Dimedone technique, Jan 35; evaluation of Uvitex 2B: nonspecific fluorescent stain for detecting, identifying fungi and algae in tissue, Sept 603; mount for small specimens, Nov 778; myoepithelial cell staining in plastic sections, May 313; reduction of freezing artifact in frozen sections using dimethyl sulfoxide, Sept 597
Histomatic TM Tissue Processor: histopathology instrumentation: innovations in 1980s, Aug 519
Histopathology: instrumentation: innovations in 1980s, Aug 519
HLA system: histocompatibility laboratory support of transplantation programs, Dec 839; planning for laboratory support of transplantation, Dec 855
Hospital laboratory: biological hazards in, Oct 665; focus on nontraditional career opportunities, Nov 786; marketing, June 400
HTLV III/LAV: agent summary statement, Feb 115
Human immunodeficiency virus (HIV): bone banking: overview, Dec 830

I

IgG immunoglobulin: red blood cell antibody testing of obstetric patients, Feb 77
IgM antibodies: and rapid detection of infectious diseases, Feb 74
IMED Volumetric Infusion Pump 960: comparisons of mechanical infusion pumps and needle size on blood flow and hemolysis, Feb 98
Immunodeficiencies: applications of flow cytometry in surgical pathology, Sept 590
Immunofluorescence: rapid methods for diagnosis of viral infections, Jan 16
Immunohematology: comparisons of mechanical infusion pumps, needle size on blood flow and hemolysis, Feb 98; current status of hemoglobin-based resuscitative fluid: review, July 444; immediate transfusion reactions in pediatric population, June 388; life-saving incompatible blood transfusion, June 385; new guidelines, standards for rubella antibody testing from NCCLS and CAP, July 461; practical aspects of blood irradiation, May 299; prospective comparison of plateletpheresis with three cell separators using identical donors, Aug 537; red blood cell antibody testing of obstetric patients, Feb 77; re-evaluating hospital blood inventories: how much blood is enough? Oct 673; review of micromethods for blood bank laboratories, Mar 149; unexpected incompatibility encountered in routine pretransfusion testing, Nov 776; unusual red blood cell sensitization associated with Dyazide®, Mar 165
Immunology: carcinoembryonic antigen in pericardial effusion, Oct 671; quantitation of monoclonal immunoglobulins using densitometry and effect of polyclonal background immunoglobulin on accuracy, Mar 170
Immunosuppressive therapy: planning for laboratory support of transplantation, Dec 855; therapeutic drug monitoring support of transplantation, Dec 852
Industry/sales: focus on nontraditional career opportunities, Nov 786
Infertility: reduced sperm motility in plastic containers, May 310
IVAC Peristaltis Pump—Model 530: comparisons of mechanical infusion pumps and needle size on blood flow and hemolysis, Feb 98

K

Kidney transplantation: chemical assessment in transplantation, Dec 841; planning for laboratory support of transplantation, Dec 855; transfusion service support of clinical transplantation, Dec 834
Klebsiella pneumoniae: identification of, using Quantum II system, Mar 163
Knife sharpeners: histopathology instrumentation: innovations in 1980s, Aug 519
Knowledgeman: database management system for medical technology educators, April 232

L

Laboratory-acquired infections: biological hazards in laboratory, Sept 665
Laboratory Quality Score (LQS): role of certified medical technologists in providing quality laboratory results, Aug 547
Latex agglutination: comparison of, with enzyme fluorescence and routine culture in detection of group A streptococci, Jan 37
Leadership: understanding function for managers, May 327
Leitz 1720 digital cryostat: histopathology instrumentation: innovations in 1980s, Aug 519
Leukemias: applications of flow cytometry in surgical pathology, Sept 590; diagnosing plasma cell leukemia, Oct 684
LISP programming: and AI applications in medical laboratory: Part I, Jan 28; and AI applications in medical laboratory: Part II, Feb 82
Literary/artistic careers: focus on nontraditional career opportunities, Nov 786
Liver transplantation: chemical assessment in transplantation, Dec 846; transfusion service support of clinical transplantation, Dec 834
L-pyrrolidonyl-beta-napthylamide hydrolysis: evaluation of rapid method for determination of, Oct 682
LX 120 Tissue Processor: histopathology instrumentation: innovations in 1980s, Aug 519
LX Embedding Center: histopathology instrumentation: innovations in 1980s, Aug 519
Lymphocytes: histocompatibility laboratory support of transplantation programs, Dec 839
Lymphomas, malignant: applications of flow cytometry in surgical pathology, Sept 590

M

Management: breaking the delegation barrier, Mar 173; systems analysis perspective for managing change in clinical laboratories, Jan 43; understanding leadership function, May 327
Marketing: the hospital laboratory, June 397
Mechanical infusion pumps: comparison of, and needle size on blood flow and hemolysis, Feb 98
Medical laboratory: biological hazards in, Oct 665; database programming for laboratory applications, April 250; decontamination: probabilistic pursuit, Nov 758; impact of transplantation on, (Editorial) Dec 829; LISP programming and AI applications in: Part I, Jan 28; LISP programming and AI applications in: Part II, Feb 82; low-budget computer for laboratory applications, April 242; marketing of, June 397; role of certified medical technologists in providing quality laboratory results, Aug 547; *See also Clinical laboratory; Hospital laboratory*
Medical laboratory technician: issues for physicians' office laboratories, (Letter) Mar 202; perspective on medical technology curricula: results of three-state survey, Sept 615; survey of education programs for, July 468; use of computers in medical technology education, Nov 773
Medical technologists: comparison of 3+1 and 2+2 medical technology educational approaches using certification examination performance, Jan 39; considerations for planning continuing education programs, Oct 695; focus on nontraditional career opportunities, Nov 786; issues for physicians' office laboratories, (Letter) Mar 202; laboratory professional: vital link in health care team, (Editorial) April 221; perspective on medical technology curricula:

results of three-state survey, Sept 615; predictors of career advancement, (Letter) June 406; role of medical assistants in physician's office laboratory, (Letter) June 405; role of certified, in providing quality laboratory results, Aug 547; staff burnout among, Oct 699; survey of education programs for, July 468; undergraduate education update: coping with change, June 393
Medical technology education: assessment of continuing education needs for clinical laboratory personnel, Feb 110; categorical list eligibility requirements for ASCP certification: university-based medical technology curriculum, May 323; comparison of 3+1 and 2+2 approaches using certification examination performance, Jan 39; considerations for planning continuing education programs, Oct 695; database management system for medical technology educators, April 232; diagnosis and treatment of student motivational problems, Feb 107; effect of academic preparation on achievement in professional courses and on certification examinations, July 463; focus on nontraditional career opportunities, Nov 786; high-resolution videomicroscopy: evaluating as effective teaching tool, Oct 690; model curriculum for blood banking in, Mar 178; nontraditional curriculum for graduate education in medical technology, Aug 545; perspective on curricula: results of three-state survey, Sept 615; preprofessional medical technology student career planning, counseling, Nov 781; recent survey of cytotechnology training programs, Feb 101; survey of education programs, July 468; undergraduate education update: coping with change, June 393; use of computers in, Nov 773; *See also Continuing education*
Meningitis: case study, Oct 677
Microbial antigen detection: of infectious diseases, rapid method of, Feb 74
Microbiology: antibiogram comparison: methicillin-resistant vs methicillin-susceptible coagulase-negative staphylococci, Nov 765; bacterial phagocytosis monitored by fluorescence and extracellular quenching: use of blood clot-derived PMNs, Aug 527; comparison of Redigel media performance with conventional media, Nov 769; cost savings in microbiology urine screening: alternative for routine culture, May 304; detection of group A streptococci from throat cultures, Jan 37; evaluation of rapid method for determination of L-pyrrolidonyl-beta-napthylamide hydrolysis, Oct 682; fluorescent compounds that nonspecifically stain fungi, July 456; identification of gram-negative bacilli using Quantum II system, Mar 163; meningitis: case study, Oct 677; PGUA-Indole microtube: rapid, accurate, cost-effective screen for *Escherichia coli* in urine cultures, Sept 600; rapid methods for diagnosis of viral infections, Jan 16; rapid methods in, for detecting infectious diseases, Feb 74; significance of beta-hemolysis in rapid identification of clinical gram-negative bacilli, Feb 88; upper respiratory infection caused by *Branhamella catarrhalis*, July 459
Microcomputer applications/technology: computation of percent hemolysis, Mar 184; computer-assisted review, April 261; computerizing small sections of clinical laboratory, April 239; database management system for medical technology educators, April 232; database programming for laboratory applications, April 256; expert systems in clinical laboratory, April 247; fibrinogen determination, Feb 118; fibrinogen/factor assay program, Sept 621; GAYLE: microcomputer-based surgical pathology log-in system, April 250; general-purpose data analysis, July 475; laboratory uses for database managers, April 234; low-budget computer for laboratory applications, April 242; non-parametric linear regression analysis, May 333; personal computers in clinical laboratory, (Editorial) April 223; primer of telecommunications for clinical laboratory, April 224; program for calculating red cell blood volume, plasma volume, whole blood volume, Oct 704; program for calibrating DuPont ACA, April 259; program for identification of antibodies, Nov 793; *See also Computer applications; Software reviews*
Microplates: review of micromethods for blood bank laboratories, Mar 149
Microscopy: reduced sperm motility in plastic containers, May 310
Microtomes: histopathology instrumentation: innovations in 1980s, Aug 519
Model 2997 Blood Cell Separator: prospective comparison of plateletpheresis with three cell separators, Aug 537
Model CS-3000 Blood Cell Separator: prospective comparison of plateletpheresis with three cell separators, Aug 537
Morganella morganii: significance of beta-hemolysis in rapid identification of, Feb 88
Motivation, problems of: diagnosis and treatment of student, Feb 107
Myeloperoxidase: quick staining method for, (Letter) April 265
Myoepithelial cells: staining of, in plastic sections, May 313

N

National Certification Agency for Medical Laboratory Personnel, May 323
National Committee for Clinical Laboratory Standards: new guidelines, standards for rubella antibody testing, July 461
National Library of Medicine: primer of telecommunications for clinical laboratory, April 224
Needle size: comparison of mechanical infusion pumps and, on blood flow and hemolysis, Feb 98
Neisseria meningitis: meningitis: case study, Oct 677
NEPHROS: renal clearance analysis program, Aug 557
Networks/gateways: primer of telecommunications for clinical laboratory, April 224
New instrumentation preview: Array protein system, Jan 47; Baker SPIRIT Electrolyte Chemistry System, May 330; Chrono-Log Model 560VS Lumiaggregometer, Dec 858; ES-600 Immunoassay System, July 472; Genetiscan Digital Karyotype System, June 402; Olympus PK 7100 automated pretransfusion blood testing system, Mar 182; Platelet Monitor System, Nov 791; Syva ETS System, Oct 702; Yellow IRIS urinalysis work station, Aug 551
Nucleic acid hybridization: and rapid detection of infectious diseases, Feb 74

O

Olympus PK 7100, preview of, Mar 182

P

Pancreas transplantation: chemical assessment in transplantation, Dec 846; planning for laboratory support of transplantation, Dec 855; transfusion service support of clinical transplantation, Dec 834
Papanicolaou stain: new, reproducible modified procedure, Oct 688
Paraproteins. *See Serum monoclonal immunoglobulins*
ParTraks program: computerized diagnosis of anemias based upon red blood cell indices and related cell counts, Aug 540
PAS-Dimedone technique: demonstration of glycogen in neutrophils using, Jan 35
Pathology: GAYLE: microcomputer-based surgical pathology log-in system, April 250
Pediatric patients: immediate transfusion reactions in pediatric population, June 388; normal platelet and mean platelet volumes in, Sept 613; practical aspects of blood irradiation, May 299
Pericarditis, malignant: carcinoembryonic antigen in pericardial effusion, Oct 671
Personal computers. *See Microcomputer applications/technology*
Personnel records: laboratory uses for database managers, April 234
PGUA-Indole microtube: rapid, accurate, cost-effective screen for *Escherichia coli* in urine cultures, Sept 600
Phagocytosis, bacterial: monitored by fluorescence and extracellular quenching: use of blood clot-derived PMNs, Aug 527
Photography competition, Oct 706
Physician's office laboratory: (Letter), Mar 202; role of medical assistants in, (Letter) June 405
Plasma cell leukemia: diagnosing, Oct 684
Platelet Monitor System, preview of, Nov 791
Plateletpheresis: prospective comparison of, with three cell separators using identical donors, Aug 537
Platelets: Chrono-Log Model 560VS Lumiaggregometer, preview of, Dec 858; normal platelets and mean platelet volumes in pediatric patients, Sept 613
Poly-L-lysine: protease digestion step in immunohistochemical procedures: ficin as substitute for trypsin, Aug 532
Polymorphonuclear cells (PMNs): bacterial phagocytosis monitored by fluorescence and extracellular quenching: use of blood clot-derived PMNs, Aug 527
Predictive Value Calculator, Mar 203
Prednisone: therapeutic drug monitoring support of transplantation, Dec 852
Protein analysis: Array protein system, preview of, Jan 47
Proteolytic enzymes: protease digestion step in immunohistochemical procedures: ficin as substitute for trypsin, Aug 532
Prothrombin time (PT) assays: single versus duplicate, Aug 524
Pseudomonas: identification of, using Quantum II system, Mar 163
Pulmonary lymphoma, primary: cytologic, histologic, and immunocytologic findings, Jan 32

Q

Quality control: laboratory uses for database managers, April 234; Platelet Monitor System, preview of, Nov 791; primer of telecommunications for clinical laboratory, April 224; role of certified medical technologists in providing quality laboratory results, Aug 547; system for anatomic pathology, June 391
Quantum II system: identification of gram-negative bacilli using, Mar 163

R

Radiation: practical aspects of blood irradiation, May 299
Red blood cells. *See Erythrocytes*
Redigel media: comparison of performance with conventional media, Nov 769
REFVALUE, software to calculate reference intervals from total patient laboratory data, Feb 122
Renal stones: preservation of urine samples for determine of renal stone risk factor, June 382
Respiratory infection, upper: caused by *Branhamella catarrhalis*, July 459
Resuscitative therapy: current status of hemoglobin-based, review, July 444
Rh blood group: Olympus PK 7100 automated pretransfusion blood testing system, Mar 182; review of micromethods for blood bank laboratories, Mar 149; transfusion service support of clinical transplantation, Dec 834
Rh immune globulin: postpartum D^u-Positive women, (Letter) July 484; red blood cell antibody testing of obstetric patients, Feb 77
Routine culture: alternative for, and costs savings in microbiology urine screening, May 304; comparison of, with enyzme fluorescence and latex agglutination in detection of group A streptococci, Jan 37
Rubella: new guidelines, standards for rubella antibody testing from NCCLS and CAP, July 461

S

Safety: biological hazards in laboratory, Oct 665; comparison of xylene substitutes, (Letter) July 483; decontamination: probabilistic pursuit, Nov 758
Semen: reduced sperm motility in plastic containers, May 310
Serum: versus heparinized plasma, comparison of results for 30 common analytes, July 449
Serum monoclonal immunoglobulins: quantitation of, using densitometry and effect of polyclonal background immunoglobulin on accuracy, Mar 170
Serum polyclonal immunoglobulins: effect of, on accuracy of quantitation of monoclonal immunoglobulins using densitometry, Mar 170
Shandon Sharpener: histopathology instrumentation: innovations in 1980s, Aug 519
Shandon Varistainer 24-3 cryostat: histopathology instrumentation: innovations in 1980s, Aug 519
Shell vial assay: rapid methods for diagnosis of viral

infections, Jan 16
Sickle cell disorders: practical approach to detection of hemoglobinopathies: Part II, July 441
Sickle cell trait: practical approach to detection of hemoglobinopathies: Part III. Nonsickling disorders and cord blood screening, Aug 513
Slide stainers: histopathology instrumentation: innovations in 1980s, Aug 519
Sodium azide: bacterial phagocytosis monitored by fluorescence and extracellular quenching: use of blood clot-derived PMNs, Aug 527
Software: low-budget computer for laboratory applications, April 243
Software reviews: NEPHROS: renal clearance analysis program, Aug 557; Predictive Value Calculator, Mar 203; REFVALUE, Feb 122
Sorval Porter-Blum JB-4 microtome: histopathology instrumentation: innovations in 1980s, Aug 519
Specimens: cytology, use of hair spray in preparation of, (Letter) Nov 801; mount for small, Nov 778
Sperm: reduced motility of, in plastic containers, May 310
SPIRIT Electrolyte Chemistry System (Baker), evaluation of, May 330
Staphylococcus aureus: detection of, Jan 37
Staphylococcus epidermidis: antibiogram comparisons: methicillin-resistant vs methicillin-susceptible, Nov 765
Staphylococcus haemolyticus: antibiogram comparisons: methicillin-resistant vs methicillin-susceptible, Nov 765
Stem cells: hematopoietic stem cell manipulation in laboratory, Dec 843
StrepAFluor system: detection of group A streptococci from throat cultures: comparison of enzyme fluorescence, latex agglutination, and routine culture, Jan 37
Streptococci: direct detection of, (Letter) Sept 627
Streptococcus bovis: detection of, Jan 37
Stress: staff burnout among medical technologists, Oct 699
Surgical pathology: applications of flow cytometry in, Sept 590; role of, in management of transplant patient, Dec 849
Systems analysis approach: for managing change in clinical laboratory, Jan 43
SYSTEM® CC-800/PDA-410: evaluation of, with trimodal histogram for white cell differential analysis, June 373
Syva ETS System, preview of, Oct 702

T

T-lymphocytes: planning for laboratory support of transplantation, Dec 855
Technicon H-1® hematology system, evaluation of, May 316
Technicon H-1 analyzer, (Letter) June 405
Technicon H-6000, evaluation of, Jan 21
Technicon RA-1000®: new vs used on, (Letter) Nov 801
Technicon RA-1000® chemistry analyzer: evaluation and comparison of new and washed cuvette trays on, Sept 607
Telecommunications: primer of, for clinical laboratory, April 224
Thalassemia syndromes: practical approach to detection of hemoglobinopathies,: Part I, June 368; practical approach to detection of hemoglobinopathies,: Part II. Sickle cell disorders, July 441; practical approach to detection of hemoglobinopathies: Part III. Nonsickling disorders and cord blood screening, Aug 513
Tinopal CBS-X: fluorescent compounds that nonspecifically stain fungi, July 456
Tissue processors: histopathology instrumentation: innovations in 1980s, Aug 519
Tissue-Tek III V.I.P.: histopathology instrumentation: innovations in 1980s, Aug 519
Transfusion: comparison of mechanical infusion pumps and needle size on blood flow and hemolysis, Feb 98; current status of hemoglobin-based resuscitative fluid: review, July 444; immediate transfusion reactions in pediatric population, June 388; life-saving incompatible blood transfusion, June 385; positive DAT workup, (Letter) Mar 202; practical aspects of blood irradiation, May 299; re-evaluating hospital blood inventories, Oct 673; service support of clinical transplantation, Dec 834; transplantation: its impact on laboratory, (Editorial) Dec 829; unexpected incompatibility encountered in routine pretransfusion testing, Nov 776
Transplantation: bone banking: overview, Dec 830; chemical assessment in transplantation, Dec 846; hematopoietic stem cell manipulation in laboratory, Dec 843; histocompatibility laboratory support of transplantation programs, Dec 839; its impact on laboratory, (Editorial) Dec 829; planning for laboratory support of, Dec 855; role of surgical pathology in management of transplant patient, Dec 849; therapeutic drug monitoring support of transplantation, Dec 852; transfusion service support of clinical transplantation, Dec 834
Trimodal histogram: evaluation of SYSMEX® VV-800/PDA-410 system with, for white cell differential analysis, June 373
Trypsin: ficin as substitute for—protease digestion step in immunohistochemical procedures, Aug 532
Tumors, solid: applications of flow cytometry in surgical pathology, Sept 590

U

Umbilical cord blood screening: practical approach to detection of hemoglobinopathies: Part III, Aug 513
Units of measure: proper expression of, (Letter) April 265
University of Health Sciences/The Chicago Medical School: nontraditional curriculum for graduate education in medical technology, Aug 545
University of Vermont, 2+2 Baccalaureate Medical Technology program, May 323
Urinalysis: cost savings in microbiology urine screening: alternative for routine culture, May 304; evaluation of urine transport kit on urine reagent strip testing, Mar 167; PGUA-Indole microtube: rapid, accurate, cost-effective screen for *Escherichia coli* in urine cultures, Sept 600; Syva ETS System, preview of, Oct 702; Yellow IRIS, instrumentation preview, Aug 551
Urine Culture & Sensitivity Transport Kit, evaluation of, Mar 167
Urine specimen: preservation of urine samples for determine of renal stone risk factor, June 382
Uvitex 2B: evaluation of: nonspecific fluorescent stain for detecting, identifying fungi and algae in tissue, Sept 603

V

V50 Apheresis System: prospective comparison of plateletpheresis with three cell separators, Aug 537
Varicella-zoster virus: rapid methods for diagnosis of, Jan 16
Vasoconstriction: current status of hemoglobin-based resuscitative fluid: review, July 444
Ventrascreen Strep A kit, (Letter) Sept 627
Videomicroscopy: high-resolution, evaluation as effective teaching tool, Oct 690
Viral infections: detection of group A streptococci from throat cultures, Jan 37; rapid methods for diagnosis of, Jan 16
Virology: cost-effective method for recovery of herpes simplex virus, Sept 610

W

White blood cells: evaluation of SYSMEX® CC-800/PDA-410 system with trimodal histogram for white cell differential analysis, June 373
Word processing: low-budget computer for laboratory applications, April 243

X

Xylene: substitutes, comparison of, (Letter) July 483

Y

Yellow IRIS urinalysis work station, preview of, Aug 551
